

Windows & .NET Magazine Names Hypersoft's OmniAnalyser™ Best of TechEd Europe 2004 Awards Finalist

Munich, 14 June 2004. Windows & .NET Magazine announced today that the messaging reporting and analysis solution OmniAnalyser™ from Hypersoft Informationssysteme GmbH was one of 30 finalists for the Best of TechEd Europe 2004 Awards conducted by Windows & .NET Magazine and SQL Server Magazine. Winners will be determined and announced at TechEd Europe 2004 in Amsterdam, on Thursday 1st July at an evening awards reception.

“All of the products that were evaluated for the Best of TechEd Europe 2004 awards were of exceptional quality and the products selected as finalists stood out amongst the competition for providing the best strategic importance to the market, the highest competitive advantage to the organization, and the most value to the customer,” said Mike Otey, Senior Technical Editor for Windows & .NET Magazine.

Hypersoft is a leading vendor of the messaging reporting and analysis software OmniAnalyser™. It is used worldwide for comprehensive, cost-effective and automated reporting. The software provides administrators as well as C-level managers an easy access to all information required to understand how reliable, cost and resource-effective the corporate mail system is operated.

OmniAnalyser™ provides all necessary means to track all details of the corporate messaging infrastructure, e.g. to meet
